

PRECON PROJECT ENGINEER – JOB DESCRIPTION

NIBBI SUMMARY

Nibbi Brothers is a dedicated team of construction professionals servicing our clients and community by building with integrity, innovation and quality. Nibbi upholds the highest standards in job site safety, safe building practices, and employee safety education. Our core markets include commercial developments, community based education facilities, mixed use and multifamily housing, seismic upgrades, historic upgrades, and waterfront projects; we also have a structural concrete division. Over 95% of our projects are negotiated, ranging in size up to \$150 million.

At Nibbi we provide dynamic career opportunities and mentoring for our employees. We are proud of our emphasis on fostering a strong sense of family through caring, mutual respect, and promoting a strong work / life balance. We encourage leadership training and continuing education at all levels. We continuously strive to recruit, develop, and retain the best talent.

POSITION SUMMARY

The PreCon Project Engineer's primary responsibility is to assist and support the Project Manager in the successful completion of assigned projects. The Project Engineer will assist with document management, risk management, and client relations. Occasional travel is required. This position reports to the Precon Project Manager.

ESSENTIAL FUNCTIONS

- Assist Project Manager with document management, risk management, and client relations of assigned projects from pre-construction to closeout.
- Ensure Nibbi's standards of safety and quality are adhered to by assertively championing Nibbi's safety culture to project team and subcontractors.
- Represent Nibbi in a professional manner.

RESPONSIBILITIES

- Manage project files and flow of information for assigned project.
- Write bid scopes.
- Keep all jobsite and field plans up to date.
- Manage RFIs.
- Manage submittals.
- Maintain pertinent project logs
- Conduct meetings when needed.
- Attend company and industry events including meetings, trainings, workshops, etc.
- Other related duties as assigned or needed.

QUALIFICATIONS

Degree in Construction Management, or related field, preferred. Candidates must have basic knowledge of general building trades and sequence of work, project financials and cost procedures, and EH&S practices. Key competencies are initiative, communication, teamwork, and dependability. Desired technical skills are ProCore, Tekla, On-Screen Take-off, MS Office Suite.

PHYSICAL DEMANDS

The physical demands described here are representative of those that must be met by an employee, with or without reasonable accommodations, to successfully perform the essential functions of this job. While performing the duties of this job the employee may be exposed to conditions that include weather such as heat and/or humidity and cold, fumes or airborne particles, exposure to dust and asphalt, and moving mechanical parts. There may be occasional exposure to toxic or caustic chemicals. Conditions can also include risk of electrical shock and risk of vibration. The noise level in the work environment can often be loud.

The Project Engineer is regularly required to:

- Walk, climb stairs, sit, and stand.
- Talk and hear at normal levels.
- See with close vision, distance vision, color vision, peripheral vision, depth perception, and have the ability to adjust focus.
- Reach with hands and arms.
